

INVEST IN - a great escape -

Tips for packing

Put chargers and cables in a **glasses case** to keep them neat.

Tie a **tag** on your bag to make it easier to spot on your luggage. Choose a colour other than red as it is the most commonly used.

Put a **rolled-up belt** inside your shirt to keep its shape.

Cover the soles of shoes with **shower caps** to prevent dirt from touching the other items in your case.

Invest in **wrinkle-free**, light-weight clothing that you can layer. Pack clothes with a similar colour palette so you can mix and match.

Pack **empty tote bags** for dirty laundry and souvenirs.
